Introduction:

While the *Majmuatal Ahzab*¹, the *Shams al Ma'arif*² and the *Manba Usul al Hikma* all three contain the *Jaljalut Sughra*, there are differences, and this is the rendition that is found in the *Manba Usul al Hikma* - *Amin Patel*

1. I [first] began in the Name of **ALLAH**, by Whom, my soul was guided to reveal secrets that were hidden within.

2. Secondly, I send salutations and prayers upon the Best of His creation MUHAMMAD, who removed misguidance and that which is wrong and unjust.

3 I ask for your Almighty Name's grandeur With a thunderous voice that makes all tremble and endure

4 O my God, heal my wounds and my pain
With a light that shines bright, like thunder
and rain

5 Bring my heart to life after its death
With Your remembrance, O Living, I take
my breath

6 Grant me knowledge and wisdom, O
Allah Purify my heart of filth and guilt, O
Mawla

7 Increase my faith with certainty and
conviction By Your right, O *Haqq*, ease my
affliction

8 Pour mercy into my heart, like a stream
By the wisdom of our Lord, the Wise, my
soul will gleam

9 The lights shine from every direction
The grandeur of our great Lord raises us to
perfection

10 Glory be to You, O Allah, the Best
Creator. The Best of Creators and Sender of
messengers and leaders

11 Bestow upon me a shining light
To revive my heart that was once dead in
the night

12 Clothe me in majesty and grandeur
And stop the hands of my enemies with a
simple gesture

13 Protect me from the oppressor and
wrongdoer By the power of the name that
makes mountains shudder

14 With a talisman of ink and a special
script I extinguish the fire that once ripped
and ripped

15 By the light of the majestic moon and
the shining star I walk on the path of truth,
near and far.

16 O Lord, fulfill my need with light
And O *Ashmakh*, quickly and clearly, my
request has ended

17 Make my affairs easy for me, O one who
makes things easy, and grant me Dignity
and excellence that surpasses all

18 Guide me to the best of its land and sea
And shield me from harm, O one who veils
and covers

19 And make my wishes and desires come true By the power of the letters that have gathered, O my God

20 With the secret of the letters entrusted to me May all our hopes be fulfilled by what they contain

21 With *Yaheen* and *Ya'yauh* and *Nasamouha Asaliya* Guide me to the highest salvation and make my affairs easy

22 O Lord of Majesty, shroud me with your embrace And with wise counsel and secrets, reveal to me

23 Deliver me from all distress and hardship For You are the hope of the worlds, even if [I am] overwhelmed

24 Pour upon me sustenance of mercy
For You are the healer of my broken heart
from weariness

25 Decisive and quietly, but crush our
enemies And subdue them, O Lord of
Majesty, with Might

26 In a fortress with *Dosam* and *Baraa Simi*,
I took refuge in the great name to escape
harm

27 Turn the hearts of the world towards
me And clothe me in acceptance with ease

28 Bless us, O Allah, in our earnings and
gathering And remove the knots of
difficulty, O one who is the best in relieving

29 O *Yaheen* and *Ya'yauh* and the best of creators And O you who bestows sustenance from His bounty.

30 Enemies come at you from every direction, But with your name, we show them from afar through dispersion.

31 You are my hope, O my God and my master, So, scatter the armies of my enemies if they intend harm against me.

32 O best of those who are asked and bestower of blessings, O best of hopes for a nation that has passed away.

33 By the number of stars in a clear sky,
By the brilliance of *Tabriz*, and the letter "*Lam*" that formed it.

34 A lamp that guides the light in secret
with subtlety, A lamp that guides the light
in waves and shines brightly.

35 *Abarkih Bairokh* and *Bayrukh Burkhwa*,
Shamarikh Shirakh and *Sharukh* that
towered.

36 With *Yamlikh Shimiatha* and *Yanukh*
Ba'daha, And with *Damiqhu Yashmukh*,
the universe was filled with fragrance.

37 As we truly seek, they see with awe,
By the right of their intentions, on a day of
turmoil and chaos.

38 Like camels and water, all of them
together, With *Hashkaakh Hashkaakh* and
Beings formed.

39 Letters that rose to the height of the
firmament and mixed, And by the name of
Musa's staff, the darkness was dispelled.

40 I seek your intercession, O our Master,
with its secret, And by the honor of the one
by whom the world was guided.

41 My star has become a light and joy
Illuminating time and days, oh shining star

42 Oh *Shamkhatha*, oh *Shalmakha*, you are
Shalmakh Oh *Aytala*, refuge of the winds,
you rustle

43 To you belongs length and duration,
intense For those who come to your door
and darkness dissipates

44 With *Ta Ha Ya Sin*, be for us

With my two cups, *Meem*, happiness comes

45 With *Kaf Ha Ya Ain Sad*, and *Thumma*, and *Saad* Our sufficiency from every evil comes in peace

46 With *Ha Mim Ain Sin Qaf*, and stop Our protection from mountains that shake

47 With *Alif Lam Mim*, and *Saad*, and what follows I have attracted the hearts of the worlds, and they come

48 With *Alif Lam Mim*, and *Meem*, and behind it It has shone with the light of the Name, and the soul has risen

49 With *Qaf*, and *Noon*, and then *Saad*, and
it is folded In its secrets and mysteries, and
what it contains

50 With what is in the Book of Allah, in
every Surah And its verses, then the letters
have been magnified

51 I ask of you by the Quran and all the
books, By your exalted names and by
verses that are detailed,

52 O my Lord, I call upon you truly,
And I implore you with the verses that I
have gathered.

53 With the secret of letters that I have
deposited in my amulet, I rise by the light
of the Name and the spirit has done its
work.

54 Three rods were arranged after the seals, And on their head, like a pair, they are balanced.

55 And a mute *Meem* and then a bent *Waw*, Like a cupping glass, they have sucked in the secret.

56 And four of them, the fingers have arranged, Pointing to the goodness that has collected for sustenance.

57 And a *Haa* with a partner *Waw*, Like a pipe of the hidden, it has turned.

58 And the last of them, like the first, is a ring, Pentagonal, with pillars containing the secret.

59 By it, the covenant, the pledge, the promise, and the fidelity, And with musk, camphor, and spikenard, it was sealed.

60 And the purest of prayers, with the best greeting, Upon the Chosen One and his Family, with a community that follows.

JALJALUT³

Counsel to the reader of the Jaljalut⁴:

“He should fulfill his religious duties in the best way, he should be sincere to Allah in his worship because [your] sincerity is the gate.

He should hide the spiritual secrets that he has seen and not want it.”

Angels:

“Know that, the number of angels in charge the Jaljaluttiya is eight.

Those eight angels are:

1. Sayyid Rukyail,
2. Sayyid Gibriel,

³ Not everyone gives out permission for the Jaljalut, please apply discretion and good judgement.

⁴ I have included the *Jaljalut Sugha* (60 verse) from the *Manba Usual al Hikma*. There also exists the extended Jaljalut Kubra (360 verse) in the same book. The kubra incorporates many of the *Barhatiya* names.

3. Sayyid Semsemail,
4. Sayyid Mikail,
5. Sayyid Sarfeyail,
6. Sayyid Anyail,
7. Sayyid Kesfeyail
8. Seyyid Tahyatmaghyelyal who is their leader.

There is a day for each of these seven angels.”

1بَدَأْتُ بِبِسْمِ اللَّهِ رُوحِي بِهِ
اهْتَدَيْتُ إِلَى كَشْفِ
أَسْرَارِ بَيَاطِنِهِ أَنْطَوْتُ⁵

⁵ “On reciting the first couplet, 30x a day, by permission of Allah (swt) [one] will gain love, respect, glory and honor. If one continues to recite the verse 18x a day, by permission of Allah (swt), wisdom gushes out of his heart and trouble disappears from his heart.”
